Beam Diagnostic and Instrumentation  
for  
Particle Accelerators

# DIPAC 2011

Hamburg, May 16th -18th, 2011  
On board of the Cap San Diego

## 3<sup>rd</sup> Circular

Dear colleagues and potential DIPAC2011 attendees

I would like to remind you that the deadline for abstract submission for DIPAC2011 is approaching. Note that the deadline is already February 15, 2011 and the abstract-server might become quite busy at the last day!

If you wish to submit an abstract (and I like to encourage you) you will find all required information on our webpage <http://dipac2011.desy.de> at "*Author Information*". The international program committee will meet shortly after the deadline to inspect the abstracts and to select the contributed talks on the base of the submitted information. The submitting author will be contacted beginning of March 2011 in case of a selection. All others will also receive a message with their paper code for their poster and paper submission shortly after that. The submission of papers will be possible from March 15, 2011. Papers should be submitted (i.e. uploaded) by the deadline of Wednesday, May 11, 2011. More information on our website at "*Paper Submission and Proceedings*".

And don't delay your booking of a hotel too much. From May 6-8 there will be a huge party of the 822 birthday of the Hamburg port which will attract a lot of tourists (maybe also you?). At May 6 you will see our venue, the freighter Cap San Diego, as a part of a ship-parade on the river Elbe (as well as the cruiser Queen Mary 2 on May 8).

All necessary hotel and travel information for DIPAC2011 accomodation can be found on our webpage at "*Hotel / Travel Information*". The deadline for the recommended hotels (and for DIPAC2011 registration as well) is April 1, 2011.

More interesting information were circled in the 1<sup>st</sup> and 2<sup>nd</sup> circular which are also available on the conference webpage at "Circulars".

Don't hesitate to contact me or the conference secretariat in case of further questions.

Hope to see you at DIPAC2011.

Kay Wittenburg (Chair)  
on behalf of the DIPAC2011 Program Committee.

Conference Secretariat:

-----  
Helga Ahluwalia, Gruppe MR      Deutsches Elektronen-Synchrotron DESY  
Phone: +49-40-8998-3311      Notkestraße 85  
Fax: +49-40-8998-4305      22607 Hamburg  
E-mail: [dipac2011@desy.de](mailto:dipac2011@desy.de)      Germany

Office hrs.: Mo., Tue., Thur.: 09:30 - 13:30. Wed.: Full day  
-----

PS I would like to inform you, that the recent BIW and DIPAC and Asian beam instrumentation committees had decided about some important changes of the following beam instrumentation workshops: We will merge the BIW and DIPAC into a truly **I**nternational **B**eam **I**nstrumentation **C**onference which will circle around the three regions Asia, America and Europe. After some discussions and voting a common name was created: **IBIC**

The following schedule has been fixed:

2011- Last DIPAC in Hamburg, Germany, Chair: Kay Wittenburg; [Kay.Wittenburg@desy.de](mailto:Kay.Wittenburg@desy.de)

2012 (May) - Last BIW in Newport News, Virginia, USA, Chair: Kevin Jordan; [jordan@jlab.org](mailto:jordan@jlab.org)

2012 (Sept) - 1<sup>st</sup> IBIC hosted by KEK, Japan, Chair: Toshiyuki Mitsuhashi, [toshiyuki.mitsuhashi@kek.jp](mailto:toshiyuki.mitsuhashi@kek.jp)

2013- 2<sup>nd</sup> IBIC hosted by Diamond in Oxford, UK in May

2014- 3<sup>rd</sup> IBIC in USA

2015 in Asia, 2016 in Europe, etc.

**What is still missing is a Logo for our new IBIC-Series!** We like to ask herewith the whole community to send us your suggestions, so that the committees can select and present the final decision at BIW2012. Please send your suggestions to one of the three recent DIPAC, BIW and IBIC chairs.

Thanks a lot for enthusiastic idea-productions and exciting deliveries!
